Field Crops Research

Contents of *Field Crops Research*, Volume 44

VOL. 44 NO. 1 — NOVEMBER 1995

Winter cereals grown for grain and for the dual purpose of forage plus grain I. Production
S. Bonachela, F. Orgaz and E. Fereres (Córdoba, Spain) 1
Winter cereals grown for grain and for the dual purpose of forage plus grain II. Water use and water-use efficiency
S. Bonachela, F. Orgaz and E. Fereres (Córdoba, Spain) 13
Intergenotypic competition during evaluation of maize progenies under limited and adequate N supply
M. Bänziger, H.R. Lafitte and G.O. Edmeades (Mexico D.F., Mexico) 25
Effect of the type of fertilizer and source of irrigation water on N use in a maize crop
M.C. Cartagena, A. Vallejo, J.A. Díez, A. Bustos, R. Caballero and R. Roman (Madrid, Spain) 33
Rate of nitrogen and sulphur fertilizers on yield, yield components and seed quality of oilseed rape (*Brassica napus* L.)
E. Asare (Kumasi, Ghana) and D.H. Scarisbrick (Ashford, Kent, UK) 41

Book Reviews 49

VOL. 44 NOS. 2-3 — DECEMBER 1995

Genetic and agronomic contributions to yield gains: A case study for wheat
M.A. Bell, R.A. Fischer, D. Byerlee and K. Sayre (Mexico D.F., Mexico) 55
Vernalization in wheat II. Genetic variability for the interchangeability of plant age and vernalization duration
S.-Y. Wang, R.W. Ward, J.T. Ritchie (East Lansing, MI, USA), R.A. Fischer (Mexico, D.F., Mexico) and U. Schulthess (East Lansing, MI, USA) 67
Photoperiod × temperature interactions in contrasting wheat genotypes: Time to heading and final leaf number
G.A. Slafer (Parkville, Vic., Australia) and H.M. Rawson (Canberra, A.C.T., Australia) 73
Tiller production and survival in relation to grain yield in winter and spring barley
M.B. García del Moral (Almería, Spain) and L.F. García del Moral (Granada, Spain) 85
Cold and freeze stress at flowering Effects on seed yields in winter rapeseed
A. Lardon and A.M. Triboi-Blondel (Clermont-Ferrand, France) 95
Effects of waterlogging at different growth stages on physiological characteristics and seed yield of winter rape (*Brassica napus* L.)
W. Zhou and X. Lin (Hangzhou, China) 103
Capitulum position in sunflower affects grain temperature and duration of grain filling
E.L. Ploschuk and A.J. Hall (Buenos Aires, Argentina) 111
Efficiency of biomass accumulation by sunflower as affected by glucose requirement of biosynthesis and leaf nitrogen content
F. Flénet (Castanet-Tolosan, France) and J.R. Kiniry (Temple, TX, USA) 119
Direct seeding and transplanting for rice production under flood-prone lowland conditions
A.R. Sharma (Cuttack, India) 129
Growth and grain yield of contrasting rice cultivars grown under different conditions of water availability
S. Jearakongman (Ubon Ratchathani, Thailand), S. Rajatasereekul (Chum Phae, Thailand), K. Naklang (Surin, Thailand), P. Romyen (Phimai, Thailand), S. Fukai (Brisbane, Australia), E. Skulkhu (Chum Phae, Thailand), B. Jumpaket (Phimai, Thailand) and K. Nathabutr (Surin, Thailand) 139

Elsevier Science B.V.

Increasing crop productivity in cassava by fertilizing production of planting material
J.L. Molina and M.A. El-Sharkawy (Cali, Colombia) 151

Keyword Index – Volumes 40–44 (1995) 159
